CUSTOM OPTIONS

Custom Materials & Stitching

Combine any material, colours or finishing techniques that suit your brand.

Sophisticated, fine colour stitching finishes off a luxurious high quality gift.

Layouts & Logo Overprinting

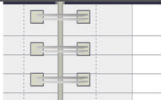

Choose the correct layout and format for your target audience to use. Select a standard Anand Diaries design or inject your own style by utilizing our in-house creative team. Advanced printing technologies enable Anand Diaries to fulfil your every need.

You can overprint your corporate logo or messages on every page of any of the standard Anand Diaries layouts.

Custom Materials & Stitching

Perforations

Include customised perforated pages to insert your own tear-off promotions or vouchers.

Perforations

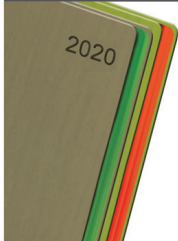

Wiro Binding

Wiro binding offers a unique look and feel to a traditional case bound diary or notebook.

Wiro Binding

Layouts & Logo Overprinting

Coloured Page Edges

Create a truly elegant look with sumptuous gilt or silver page edges. From as little as 1,000 units, why not create a dramatic presentation by Pantone matching your page edges to your brand.

Coloured Page Edges

Date Designs

Diary Date Designs

Inject personality to your dated product by choosing your own font or design that matches your corporate image, or select an embossing technique that complements your logo.

Elasticated Bands

Elevate your product design by adding a coloured elasticated band that matches or complements your brand. Secure your diary or notebook with both a practical and coordinating perspective.

Ribbons

Printed & Coloured Ribbons

For a refined promotional gift, add your logo or company message on the variety of colours available to suit your brand.

Elasticated Bands

**Think Organic**  
Assisting the Fight Against Climate Change

Organic gm in g

Organic farming eschews chemical fertilizers and pesticides, it reduces non-renewable energy use. It takes considerable amounts of fossil fuel to create the synthetic fertilizers and pesticides used in conventional farming.

Moreover, organic farming increases the amount of carbon returned to the soil, which in turn lessens the impact on the Greenhouse effect and global warming.
